**Re: Petroleum Release Cleanup Intent and Section 9005 Information
Request for Release ID: C-0026-07**

Dear Mr. Martin:

This is a request for information concerning the underground storage tank(s) (USTs) located at your facility. The information requested specifically relates to your compliance with federal environmental regulations. U.S. Environmental Protection Agency records indicate that a petroleum release occurred on February 19, 2007. We understand that soil boring and groundwater monitoring activities were conducted. However, our records indicate that a Final Assessment Report, due February 19, 2008, has not been submitted. We request confirmation of your intent to continue corrective actions at this site.

Pursuant to Section 9003(h) of the Solid Waste Disposal Act, as amended 42 U.S.C. Section 6991 b(h) and 40 C.F.R Part 280, Subpart F you are required to continue corrective action activities at the former Martin's Kountry Korner, 2990 West Remus Road, Mount Pleasant, Michigan 48858.

As the owner or operator of the UST system at the time of the petroleum release, EPA requests that you complete and return the attached form, *Corrective Action Statement of Intent*, within fifteen days of receipt of this letter. Please forward the completed form to:

U.S. EPA Region 5
Land and Chemicals Division
RCRA Programs
LUST Corrective Action Program Manager (LR-8J)
77 West Jackson Blvd.
Chicago, IL 60604-3590

This Information Request is not subject to the approval requirements of the Paperwork Reduction Act of 1980, 44 United States Code (U.S.C.) §3501, et seq. The EPA has the authority to request information regarding regulated underground storage tanks under Section 9005 of the Resource Conservation and Recovery Act (RCRA), as amended, 42 U.S.C. §6991d. You must respond to this Information Request. Failure to respond to this information request could subject you to enforcement action, including the assessment of penalties. In addition, continued delay in the clean up of the site may lead to escalated enforcement actions. For additional information, please contact Erin Galbraith, of my staff, at galbraith.erin@epa.gov or 312-886-6879.

Sincerely,

Laura L. Lodisio, Chief
RCRA Programs Section
Land and Chemicals Division
